# Basic Knowledge
Assembly

Insert the tip of your finger firmly into the opening on the bottom side of the phone, between the phone and the rear cover. Then lift up the cover slowly but firmly.
Remove the rear cover, then insert the SIM card and the memory card separately in slots **1** and **2** and place the battery according to the electrode orientation.
Insert the rear cover after the battery was placed.

Turning On the Phone

To turn on the phone

• Press and hold the power button on the top of the phone until the phone vibrates.

It may take a while for the phone to start up.

To unlock the screen

• If the screen goes dark, press the power button briefly to activate it.
• To unlock the screen, drag 🔒 to the right across the screen.

To Turn off the phone

• Press and hold the power button until the options menu opens.
• In the options menu, tap Power off.
• Then tap OK.

It may take a while for the phone to shut down.

Using These Buttons

MENU : Open a list of options available in the current screen or application.

🏠 : Go to the Home screen; Press and hold it to open a window showing your recently used applications.

🔍 : Open Google search.

↩ : Go back to the previous screen.

Using the Touch Screen

Zooming

• To zoom the screen, you can tap the buttons - / + when they are available.
You may have to drag the screen (in any direction) to make the zoom icons appear.

• To zoom the screen, you can also place two fingers on the screen at once and pinch them together (to zoom out) or spread them apart (to zoom in).

Scrolling

To scroll, move your finger up or down on the screen. You may also need to scroll to the sides on some web pages.
To scroll more quickly, flick your finger in the direction you want to go on the screen. You can wait for the scrolling movement to stop by itself, or you can stop it immediately by tapping the screen.

Getting Started

Home screen
To go to the Home screen
• Press 🏠.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types MP436 (FCC ID: ZDRMP436) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the ear is 0.466W/kg and when properly worn on the body is 1.18W/kg. This device was tested for typical body-worn operations with the back of the handset kept 1.5cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.5cm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

FCC WARNING

This device complies with Part 15 of the FCC Rules. Operation is
subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is
    connected.
-Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
